Grading policy

- Homework average of 3
- Lab report average of 3

Procedures

a. **General**

- **Homework** is supposed to be completed and submitted individually. Please submit it via the Moodle website in PDF format. The submission and passing grade of each homework is compulsory for the access to the corresponding laboratory.
- **Labs and reports**. Labs and reports will be completed in pairs at a designated workstation. Each lab report must be completed and submitted by the same pair at the end of each lab session. Include the names of each partner in the pair and the number of the

designated workstation in each lab report. Reports should be submitted by *only one* of the partners in the pair. Submission is via the Moodle website in PDF format.

- Reports that are submitted incorrectly will not be graded.
- Absence from the laboratory without permission from the lab instructor is strictly prohibited. Failure to attend will result in automatic failing grade for the lab.
- Additional lab sessions for students who served in the military on the assigned lab date or received permission from the course lecturer will be scheduled as needed. These sessions do not extend to the lab partner or to students who did not notify the lab instructor about missing the lab ahead of time.

b. Lab Workflow

At the beginning of the lab, the lab instructor will give a brief overview of the relevant material required to perform the lab, and then the experiment will begin.

Lab sessions last 4 hours. The labs are designed such that all experiments and the lab report can be completed during this time.

Lab reports must be submitted by the end of the lab session. Late reports will not be accepted.
